

LOGISTICS
PARTNERS
Global Advisor Network

Global advisor network of experts provides advice, solutions, and contacts in logistics

The »Logistics Partners« network is operated by LNC GmbH, based in Hanover and Berlin, Germany.

Discover our solutions

»Logistics Partners« assists you in forming new partnerships within the logistics sector. We facilitate the creation of new transport links and supply chains, the development of innovative logistics services, the initiation of R&D approaches or projects, and the implementation of other forms of cooperation. Our network serves all companies and stakeholders requiring logistics and transportation services.

»Logistics Partners« offers partnership opportunities to customers in the global logistics industry. Discover how we can assist you.

Our mission

»Logistics Partners« mission is to create a platform that enables small and medium-sized logistics companies to enter new foreign logistics markets with ease. We aim to provide our customers with the quality and reliability of a trusted network and built on the expertise of specialized logistics professionals. In addition to market access, we develop logistics projects with and for our customers, enabling them to offer innovative logistics solutions.

Our guidelines

- We adhere to the highest standards of quality in all processes and services.
- We facilitate access to partners in a diverse range of high-ranking sectors through tailored matchmaking services.
- We serve as established, reliable, and well-networked access points and logistics ambassadors in selected countries and beyond.
- We foster a committed, fast, and trusting cooperation with an emphasis on discretion and professionalism.
- We provide professional support for dissemination, marketing, and expanding reach.

Our services are designed to meet the specific requirements of our customers

Projects for innovative logistics solutions

At »Logistics Partners«, we develop joint projects with partners and customers.

Our services include the creation of new transport links, the execution of R&D projects in collaboration with partners, and the identification of optimal financing options for your logistics project.

Supporting transformation processes

»Logistics Partners« is committed to ensuring the successful implementation of your transformation process and providing a robust foundation for informed decision-making. We consider your strategic goals and objectives, existing transportation networks, technological resources, organizational culture, and market position to develop a comprehensive solution. If necessary, we also facilitate partnerships with solution providers to accelerate the transformation process.

Customized communication solutions

We provide comprehensive logistics marketing solutions, tailored to assist you in reaching your target audience and expanding into new markets. Our experienced team will ensure that your logistics solution receives optimal exposure. We facilitate effective public relations strategies to enhance the visibility and success of your innovative logistics offerings.

Matchmaking service for logistics solutions

Our matchmaking service assists you in accessing new logistics markets. Our network of experts offers a range of logistics solutions to meet varying client needs. Send us your inquiry and we will connect you with the most suitable partners.
