

## Global advisor network of experts “Logistics Partners” founded

Hanover and Berlin, Istanbul, Cairo, Bangalore, 08/10/2024: The constant changes in the markets and the associated requirements for efficient, sustainable, resilient and cost-effective transport and logistics chains can only be met by new and collaborative solutions for all economically active companies.

Internationalisation is necessary, but increasingly difficult to achieve. This can only be achieved through collaborative and trusted partnerships that have the necessary expertise, networks, experience and qualified market access.

Therefore, “Logistics Partners” offers tailor-made solutions. The four founding partners

- LNC – [www.lnc-hannover.de](http://www.lnc-hannover.de) with headquarters in Hanover and Berlin for Germany/Europe
- LCS – [www.l-cs.com](http://www.l-cs.com) with headquarters in Istanbul for Turkey/Central Asia
- KML – [www.kml-logistics.net](http://www.kml-logistics.net) with headquarters in Cairo for Egypt/North Africa/Middle East
- SLINEP – [www.slinep.com](http://www.slinep.com) with headquarters in Bangalore for India/East Asia

are pooling their expertise and resources with “Logistics Partners” in order to jointly offer optimal, high-performance and comprehensive services worldwide. Other partners are preparing to join.

The first measure to be implemented is a business delegation trip to Saudi Arabia and the United Arab Emirates (UAE) on the occasion of Logimotion Dubai from 8 to 12 December 2024. Information on the network and the measures are available here: [www.logistics-partners.net](http://www.logistics-partners.net)
